Jack Bauer comes out of hiding in London to head off a massive terrorist attack while being hunted down by American forces dispatched by President James Heller. Four years after the events of Day 8, Jack Bauer remains a federal fugitive. Meanwhile, amid growing concerns over the use of US military drones in combat, President James Heller pays a visit to London to negotiate a treaty to continue their basing on British soil. Having heard rumors of an imminent attack against Heller, Bauer resurfaces in the city, where he is apprehended by the CIA and forcibly recruited into joining their investigation. As forces within the White House conspire against him, Bauer realizes that the complexity of the plot extends beyond a presidential assassination, and that the consequences of a successful attack will alter the course of history. With the help of a disgraced CIA agent and a hacker collective preaching free information, he must confront an unseen enemy whose personal vendetta threatens to push the world to the brink of war. This is one of the most excellent TV series ever. My comment might contain spoilers for people who haven't seen the show.

You have been warned!

The only thing I can say there is no dull moment when it comes to this show. And every turn the plot deepens. A very nice and well laid out plot.

Ten stars for the writer and all the production people. NICE WORK! Alright, after 2 years of being member in IMDb.. This is my first review ever...

I had to write this because seriously guys after nearly 4 years of 24 TV show absence.. it came back as charm.. it never left our hearts.. I was one of 24 big fans.. and I won't lie.. I cried when I heard that they aren't going to make another season...

And now it is like our life came back.. When I just watched 2 first episodes of Live another day.. Maaan I gotta say I loved it..Heller being president, Audrey ( Jack Bauer Ex-Girlfriend ) being married to one of president Superior ( Who hid some information that Jack Bauer is back in action from president and Audrey ), Chloe changed a lot from wife & mother to group member of hacking organisation.. US military's drone hacked, etc Everything changed.. Just everything.. Which makes it interesting and which make the next episodes unpredictable like the last few seasons.

The most powerful words that Jack Bauer said was: I don't have friends... It is just that no matter how hard he tries how well he does.. No friend would help him out... But Chloe just proved that she would be there for him always.

However that Kate agent Morgan.. whose her husband betrayed his country by selling confidential informations to Chine.. I loved her from beginning. especially how she tried to prove how well is she as agent.. It is like she is female version of Jack Bauer.. Let's hope that she would be working side by side with him.. or even better against him.

That US Military Drone that got hacked by ex colleague of Chloe and killed 4 soldiers ( 2 Americans soldiers and 2 British soldiers ) is seriously very interesting story.. I mean We gotta see how Jack & Chloe prove that It was hacked and controlled not by an American pilot who can turn the world to the 3rd world war.. It is all in Baour's hand to stop that war. Mostly, no. There were rumors that the real-time format of the series had been abandoned, in favor of a 12-hour format that would be a condensed version of a 24-hour day. However, the bulk of the series is still in real-time, with every 1-hour episode depicting an hour within the series.

It is only in the final episode, 10 minutes before the end, that there is a flash-forward of 12 hours. As a result, the series starts at 11:00 AM, and ends at 11:00 AM the next day. It still encompasses 24 hours, but skips one block of 12 hours within it. Kiefer Sutherland as Jack Bauer

Mary Lynn Rajskub as Chloe O'Brian

Kim Raver as Audrey Raines

and

William Devane as James Heller

Producer/Writer David Fury has tweeted about talking and having dinner with Carlos Bernard (Tony Almeida), possibly hinting of his return too, although it is unknown if it will happen yet.

More to be added as the news is announced
