This story is real. It has and will happen. We know some of the names but not all. I think we will know them shortly.

She shrieked with a joy only innocents have. Horse ran like the wind, carrying her easily on his back. Adam watched her long hair flowing behind her in the wind . . . and he loved her, more than life itself. He loved her so deeply that it caused him to ache in the depths of his very soul.

This love story allows us to look into four great and pivotal times in the history of our world, exploring how the greatest gift we received from Father--our life-giving "Free Will"--ended up causing so much heartache to his innocent creation: you and I.

God's holy mountain, the center of the Eden Garden, always was God's special place to enjoy his creation. The fall took place here. The cross took place here, as will the Great Religious wars of Megiddo. But I always wondered why there was another hateful rebellion against Father and his holy mountain at the end of Adam's Last Generation--the thousand years we know as the millennium period. Surely, with Jesus's return and all his enemies being destroyed in the Great Tribulation war and only the redeemed entering the New Eden for a thousand years of plenty, with death almost unknown, how could this happen? Why?

The story of Adam's Last Generation tells us a lot about ourselves. This is a clear and simple story showing Father's magnificent and pure love for his children and the great lengths he will go to retrieve and protect them.

Enjoy.
